Adega de Redondo (AR) is one of the most successful cases in the Portuguese wine production and played a decisive role in the rebirth and subsequent development of Alentejo wine. In addition to its flagship brand, Porta da Ravessa, AR produces a diverse range of other brands, like emblematic Real Lavrador. The diversity of brands for different market segments states the presence of Adega de Redondo overseas, where brands such as Terras Lusas, Maré Viva, Castelo de Terena or Vinha do Convento appear. Add on - consistently obtaining numerous distinctions in national&international competitions.

AYAMA is a winery located in the Paarl countryside close to the slopes of the Paardeberg Mountain, owned by a group of Italian investors united by friendship and love for South Africa. "Ayama", a Xhosa word means "someone to lean on". Ayama dreams was to transfer a part of their Italian spirit to South Africa. From this comes the idea of bringing the Vermentino grape into the South African ampelography, the unusual choice to celebrate this union between Italy and the rainbow nation. We focus in unusual varieties like Grenache Blanc, Merlot, Viognier, Petite Sirah, Carignan and Nero D'Avola.

CATHERINE
de Montgolfier

Château Catherine de Montgolfier is a prestigious estate in the La Clape Cru appellation of Languedoc. We produce all of our wines using organic farming methods. The château was named Catherine de Montgolfier to pay tribute to my mother, who passed away at the age of 57. As the 9th eldest heir of the grandfather of the engineers who invented the Montgolfier balloon, we have revived Catherine's passion by creating great feminine, elegant wines. Our distinguishing feature compared to other estates is that we have the largest Beaune Egg wine cellar in Europe.

Here in Pomerol, on the land of our ancestors, wine and the work of the vineyard are a passion elevated to a religion. Our estate extends over more than 9 hectares, in one piece all around the building. It has been passed down from woman to woman, as an inheritance, since 1830.

Our vines, aged between 40 and 60 years, are maintained in the purest tradition and respect for the land. For us, our Pomerol is the expression of a work and know-how passed down for more than 180 years.

Marianne de Pedro is now at the head of the property.

Quinta do
Combro

Our family has been producing wine in the Douro for over 160 years. The company's vineyards, winery and main house are located in Vilarinho de Cotas, in the municipality of Alijó. It is five kilometres from Pinhão, considered the heart of the Douro, where it all began. Characterized mainly by small plots, the result of the division of the property over many generations, it is dominated by old vines. All production is carried out organically, meaning that no herbicides are used (weed control is done mechanically) and the minimal fertilization used is biological and not chemical.

Producers of wines, vermouth and EVOO.

Centenary cooperative of family growers who have been living in the villages of Falset and Marçà for generations. We are committed to our project and are aware of the difference our hard work throughout the year in the vineyards can make in terms of quality grapes. We are able to extract the aromatic strength of our Garnatxa and Carinyena, which together with the great diversity of soil type and topography, leave a distinctive imprint and character on our wines. We are part of the D.O. Montsant, located in the county of Priorat, in southern Catalonia.

DESVISIO

Vinhos Desviso is a small, family-run winery, producing minimal intervention white and red wines in the Lisbon region of Portugal. In their winery located 50 minutes north of Lisbon, the founders Scott and Marta (he is American, she is Portuguese) produce fresh and elegant wines, mainly single grape varieties, allowing each wine to express itself and tell its own story. Vinhos Desviso's first harvest was in 2022.

CHATEAU DE CHEMAN produces organic whites, rosés, reds, Crémant de Loire (sparkling) and an exceptional sweet white Coteau de l'Aubance on 25 hectares in one of the most beautiful terroir of Anjou, located at the exact limit of the shales (schist) of "Anjou Noir" and limestone chalks of "Anjou Blanc".

This exceptional double terroir allows CHEMAN to raise wines of great aromatic complexity, revealing the minerality of shales and the roundness of calcareous clay. The aging can take up to 24 months in oak barrel, after maceration and fermentation in vat, of grapes harvested plot by plot.

The vine growers of Etim and Vinicola del Priorat are families that we have been living in Priorat all our lives. We are the ones who have cultivated these lands with our own hands. We are the ones who love our home and want to take care of it so that it can keep all its essence. Now we face new challenges and new objectives. These two wineries want to continue to stand side by side with their people. HERAKI WINES is the family winery of Fulya Akıncı from Turkey and José Hernández from Spain, a couple that met while studying enology in Bordeaux. They moved to Turkey in 2014 and they produce wines from old vineyards with native grape varieties from several Turkish traditional regions and make unique, authentic and different wines. In 2019 they produced their first vintage.

HERAKI's wines are created in the vineyard. Therefore, the winemaking process is handcrafted and minimal intervention where nature is prioritised.

By winning the "people's choice" competition in the year 2021, with our Baron de B red, we have had the confirmation that we are prepared for customers demands of the UK market.

It is a fact that we have extraordinary, fresh, elegant, sublime wines produced in a cellar that works by gravity and whose winemaking techniques confer excellence in our wines.

Founded in 1854 by the descendants of the duke of Lancaster, surrounded by cork trees and eucalyptus from Australia, Herdade da Calada hides between the smooth hills of Alentejo. Discover the Estate with us.

Hoenshof's main goal is to put Belgian wines more prominently on the map. Jerom Houben says, "A lot of knowledge was passed down to me from a young age. The path to writing our own story is wide open. We don't want to copy and paste, but to innovate."

In 2002, Hoenshof planted its first grapevines on lands that have been in the family since 1907. Today we cultivate 6.5 hectares of vineyards and work mainly with innovative grape varieties that are adapted to a cool climate.

Hof Maximilian is a boutique winery run by three passionate women, rooted in Southern Styria and Svečina, Slovenia. With a fresh perspective and great attention to detail, we craft elegant, expressive white wines and a vibrant Frizzante. Our vines grow in historic locations, some dating back centuries, shaped by wind, limestone, and tradition. Each bottle reflects the spirit, strength, and charm of this unique cross-border region. We value honesty over pretension and let each wine speak for itself – pure, regional, and full of soul.

Château La Croix De Millorit is a distinguished wine producer located in the Côte de Bourg appellation, in the heart of the Bordeaux region. With a heritage dating back to the 18th century, our château carries a legacy of excellence and tradition. Our wines were already recognized as early as 1868, featured under the historic name “Millorit”. Nestled in the scenic limestone hills of Bayon-sur-Gironde, our vineyard benefits from a unique microclimate ideal for cultivating exceptional grapes. We grow three classic Bordeaux varieties: Cabernet Sauvignon, Merlot, and Malbec.

In 1918 the Santacana family, one of the oldest in the Penedès region, embarked on its journey into the fascinating world of wine.

Years of great dedication to the land and winemaking make this one of the most prestigious brands in the Upper Penedès wine industry.

8 October 1992 saw the inauguration of the expanded winery, which continued the ancestral winemaking tradition – demanding, artisanal, respectful and firmly committed to nature and the environment – which works every day to ensure that Montesquius remains a leader in cavas and wines.

Quinta da Plansel was created in 1997, when Dorina Lindemann, daughter of Jorge Böhm, oenologist licensed by the University of Geisenheim, came to Portugal with her husband Thomas Lindemann and leveraged the existing vineyards linked to the program of technical improvement of her father who devoted himself to the production of wine.

Quinta da Plansel is located around 100km away from Lisbon, in the southeastern part of the city of Montemor-o-Novo with around 75 hectares of vineyards that are an integral part of DOC Évora.

QUINTA DO PINTO is a family owned and run winery. 53 hectares of clay lime-stone vines surrounding a 18th century manor house with a semidetached cellar, built with traditional cement tanks. Wines are elegant, mineral, vibrant and have an excellent ageing potential due to the natural acidity of the Atlantic influence.

Vines are cultivated under certified Integrated Production and rational viticulture practices of micro-zoning.

Fermentation in the traditional concrete tanks with indigenous yeast.

Certified VEGAN.

Family winery based in Cima Corgo sub-Region in the core of the Douro Valley. Project inspired by their grandfather's love for the Douro region. Focused on native grapes, creating wines with sense of place with very low intervention (no added yeasts). We privilege freshness and elegance combined with structure. Our portfolio is quite diverse, ranging from traditional blends to more innovative styles (amphora, Skin contact). Our Vineyard is our garden and we nurture our grapes with care and attention having high sustainable practices. We have Vegan and Sustainability certification in place.

Unison Vineyard is a small Family Estate at the heart of the premium NZ red grape growing Gimblett Gravels Winegrowing District in Hawke's Bay. Established in 1993 on a 8.2 Hectare site. 5000 vines per hectare are carefully managed for low yield, ripeness and intense flavour. Merlot, Cabernet Sauvignon and Syrah love the amazing Gimblett Gravels soil. Premium white grapes are selected from neighbouring boutique wineries to make Sauvignon Blanc, Pinot Gris and barrel fermented Chardonnay. Hand crafted with love from start to finish and bottled on site by UK Expat family. Come and enjoy.

VIGRUNT winery focuses on biodynamic methods of grape growing and production of natural wines. In the vineyard we treat the vines with herbal extract, in the cellar the wine lies in acacia barrels, we do not use sulfur to treat the wine, we do not filter the wine - natural sedimentation. Our wine is a 100% natural product. We specialize in white varieties Pinot Noir, Grüner Sylvaner and Rhein Riesling.

Yaban Kolektif is a wine project reconnecting Anatolia's lost grape heritage with the present. By working with forgotten local varieties and collaborating with growers, Yaban rescues endangered grapes through meaningful production, not nostalgia. Prioritizing better farming, local yeasts, and thoughtful winemaking, Yaban works with old, ungrafted vines and growers thousands of kilometers apart, some farming at 1800m altitude—proving another path is possible, rooted in care, continuity, and collective effort across diverse terroirs and traditions.
